## Independent Auditor's Report

Members of the Board of Education  
Barren County Board of Education  
Glasgow, Kentucky 42141

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Barren County Board of Education, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Barren County Board of Education's basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements prescribed by the Kentucky State Committee for School District Audits in the *Kentucky Public School Districts' Audit Contract and Requirements*. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Barren County Board of Education, as of June 30, 2020, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4-10, the budgetary comparison information on pages 57-58, and the pension and OPEB liability and contributions information on pages 59-66 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Barren County Board of Education's basic financial statements. The combining and individual nonmajor fund financial statements, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

### **Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated November 13, 2020, on our consideration of the Barren County Board of Education's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Barren County Board of Education's internal control over financial reporting and compliance.

**BARREN COUNTY BOARD OF EDUCATION  
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)  
YEAR ENDED JUNE 30, 2020**

As management of the Barren County School District (District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2019. We encourage readers to consider the information presented here in conjunction with additional information found within the body of the audit.

**FINANCIAL HIGHLIGHTS**

The beginning cash balance for the District General Fund was \$3,386,957 and ending cash was \$2,156,074.

State revenue for the Capital Outlay Fund increased \$231 over 18/19; a .1% increase. The Board of Education voted to use if necessary \$446,860 of Capital Outlay funds to offset general fund maintenance expenditures. The bulk of these funds (\$299,405) were used to pay for KISTA bus debt. The remaining Capital Outlay Funds were used for ECM Bonds (\$133,592) and combined with the leftover Building Fund money (\$100,497) to cover \$114,360 of Maintenance Expenses.

State revenue for the building fund decreased by \$71,248 from the prior year, local tax revenue increased by \$109,758.

There were three interfund transfers from the General Fund to the KETS grant for the technology offer of assistance totaling \$93,630, an increase of \$173 from the prior year.

The General Fund had \$44,774,960 in revenue. General Fund Beginning Balance was \$4,056,622, an increase of \$159,323 from the prior year. The General Fund Local Revenue was \$11,392,107, a decrease of \$12,136 from the prior year. The General Fund State Revenue was \$32,619,269, which includes SEEK Funds (20,002,554), National Board Supplements (\$19,330) and on behalf payments (\$12,597,385). The overall General Fund State revenue increased by \$335,835 resulting from an increase in the on-behalf payment revenue of \$502,177 and a decrease in SEEK funding (\$166,107 decrease) and National Board Supplements (\$238 decrease). The General Fund Federal Revenue was \$203,384 which was a decrease of \$6,006 from the prior year. Other revenue received was \$560,200 an increase of \$541,270 from the prior year. The bulk of the other revenue was from the sale of the Broadway Property.

General Fund expenditures and transfers out totaled \$46,196,791, an increase of \$2,339,516 from the prior year. The bulk of the increase was because of the following items.

- \$2,215,616 purchase of the Glasgow Christian Academy Trojan Way Campus. The Board intends to sell construction bonds for a renovation of the property and reimburse the General Fund for this amount.
- The on-behalf payments increasing by \$498,502.64 from the prior year.
- Net decreased of spending in other areas of \$375,524.91.

The special revenue fund revenues decreased \$14,119 over the 18/19 school year. A reduction in grant funds in 21st Century accounted for a significant portion of the reduction.

- Fund 54 is a proprietary fund for the community education classes in which enrollees pay fees to reimburse instructors.

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)  
YEAR ENDED JUNE 30, 2020**

**OVERVIEW OF FINANCIAL STATEMENTS**

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**Government-wide Financial Statements:** The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the district is improving or deteriorating.

The statement of activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements outline functions of the District that are principally supported by property taxes and intergovernmental revenues (governmental activities). The governmental activities of the District include instruction, support services, operation and maintenance of plant, student transportation and operation of non-instructional services. Taxes and intergovernmental revenues also support fixed assets and related debt.

**Fund Financial Statements:** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. This is a state mandated uniform system and chart of accounts for all Kentucky public school districts utilizing the MUNIS administrative software. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: governmental, proprietary funds and fiduciary funds. Fiduciary funds are trust funds established by benefactors to aid in student education, welfare and teacher support. The proprietary funds are food service operations (Fund 51), after school program (Fund 52), adult community education program (Fund 54), and fiscal agent fund, Trojan Times (Fund 61).

**Notes to the financial statements:** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

**BARREN COUNTY BOARD OF EDUCATION  
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)  
YEAR ENDED JUNE 30, 2020**

**GOVERNMENT-WIDE FINANCIAL ANALYSIS**

Net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets exceeded liabilities by \$3,713,066 as of June 30, 2020. Included in this amount are liabilities totaling \$33,667,254 attributable to the net pension and OPEB liabilities.

The largest portion of the District's net position reflects its investment in capital assets (e.g., land and improvements, buildings and improvements, vehicles, furniture and equipment and construction in progress); less any related debt used to acquire those assets that are still outstanding. The District uses these capital assets to provide services to its students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The District's financial position is the product of several financial transactions including the net results of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets, and the depreciation of capital assets. Current year financial position increased as a result of increased revenues and continued management of expenditures.

Change in net position	<u>\$ 2,876,579</u>	<u>\$ 6,742,004</u>

The largest change in June 30, 2020 as compared to June 30, 2019 was in the area of state and federal revenue sources. The District had included a grant in revenue in the prior year of approximately \$5.5 million for the purchase of capital assets. In the current year this grant was only \$854,862. The District also put in service a new facility upgrade and various equipment in fiscal year 2020. That with the large additions in the prior years has caused depreciation expense to increase. Actuarial pension and OPEB expense decreased in the current year by approximately \$600,000.

**BUDGETARY IMPLICATIONS**

In Kentucky, the public schools fiscal year is July 1 to June 30: other programs, i.e. some federal programs operate on a different fiscal calendar, but are reflected in the District overall budget. By law, the budget must have a minimum 2% contingency. The Barren County Board of Education adopted a budget with an unassigned contingency of 5% and 6.93% for 18/19 and 19/20 respectively. Significant Board action that impacted financial status for the 19/20 school year included adoption of the tax rate. The tax rate adopted was the same rate as the prior year but generated higher revenue because of property assessment gains. It's important to note that SEEK funding reduces a portion of these gains with the "equalization" factor used in SEEK funding.

The Barren County Board also has also incurred a state-required increase in employer pension costs. The classified employer pension costs increased from 21.48% FYE 19 to 24.06% in FYE 20.

Like most years, the Board is expected to see continued yearly inflationary costs and increased budgeted expense for a number of items. The Board is attempting to be proactive in planning for any changes that might arise with a change in retirement system and contribution rates and potential reduction in state funding. A number of revenue streams, including utility tax and Medicaid reimbursement have helped to offset rising inflationary costs. The Board has also taken a proactive approach in outsourcing items when available. Even facing these adverse financial challenges, we continue to address our changing student population and actively evaluate new grant opportunities to further meet our students' needs and to ultimately reach higher and achieve more.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN  
FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES  
For the Year Ended June 30, 2020**

Net changes in total fund balances per fund financial statements \$ (1,095,229)

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays are reported as expenditures in this fund financial statement because they use current financial resources, but they are presented as assets in the government wide statements and are depreciated over their estimated economic lives. The difference is the amount by which capital outlays exceed depreciation expense for the year. 3,775,611

Gains and losses arising from asset basis are not presented in governmental funds because they do not provide or use current financial resources; however, they are presented on the District-wide Statement of Activities. The difference between cost and accumulated depreciated for the assets sold or disposed net to this amount for the fiscal year. (473,961)

The difference between actuarial pension and OPEB contributions and actual contributions made are recorded as adjustments in the statement of activities (602,808)

Bond and capital lease payments are recognized as expenditures of current financial resources in the fund financial statement but are reductions of liabilities in the statement of net position. 3,709,756

Generally, expenditures recognized in this fund financial statement are limited to only those that use current financial resources, but expenses are recognized in the statement of activities when they are incurred. (2,436,790)

**NOTES TO FINANCIAL STATEMENTS**  
**June 30, 2020**

1. Summary of Significant Accounting Policies:

Reporting Entity

The Barren County Board of Education, (“Board”), a five member group, is the level of government which has oversight responsibilities over all activities related to public elementary and secondary school education within the jurisdiction of the Barren County Board of Education (“District”). The District receives funding from Local, State and Federal government sources and must comply with the commitment requirements of these funding source entities. However, the District is not included in any other governmental “reporting entity” as defined in Section 2100, Codification of Governmental Accounting and Financial Reporting Standards. Board members are elected by the public and have decision making authority, the power to designate management, the responsibility to develop policies which may influence operations and primary accountability for fiscal matters.

The District, for financial purposes, includes all of the funds and account groups relevant to the operations of the Barren County Board of Education. The financial statements presented herein do not include funds of groups and organizations, which although associated with the school system, have not originated within the Board itself such as Band Boosters, Parent-Teacher Associations, etc. The District is not involved in budgeting or managing these organizations, is not responsible for any debt of the organizations, and has no influence over the operations of these organizations.

The financial statements of the District include those of separately administered organizations that are controlled by or dependent on the Board. Control or dependence is determined on the basis of budget adoption, funding and appointment of the respective governing board.

Based on the forgoing criteria, the financial statements of the following organization are included in the accompanying financial statements:

Barren County Board of Education Finance Corporation – On July 23, 1991, the Board of Education resolved to authorize the establishment of the Barren County Board of Education Finance Corporation (a non-profit, non-stock, public and charitable corporation organized under the School Bond Act and KRS 273 and KRS Section 58.190) (the “Corporation”) as an agency for District for financing the costs of school building facilities. The members of the Board also comprise the Corporation’s Board of Directors.

Basis of Presentation

District-wide Financial Statements – The Statement of Net Position and the Statement of Activities display information about the District as a whole. These statements include the financial activities of the District, except for fiduciary funds. The statements distinguish between those activities of the District that are governmental and those that are considered business-type activities. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

The District-wide Statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include reconciliation with brief explanations to better identify the relationship between the District-wide Statements and the statements for governmental funds.

**BARREN COUNTY BOARD OF EDUCATION**  
**NOTES TO FINANCIAL STATEMENTS**  
**June 30, 2020**

1. Summary of Significant Accounting Policies, Continued:

Basis of Presentation, Continued

The District-wide Statement of Activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the District and for each function or program of the District's governmental activities. District expenses are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or government function is self-financing or draws from the general revenues of the District. The District allocates certain indirect costs to be included in the program expenses reported for individual functions and activities in the District-wide Statement of Activities.

In the District-wide Statement of Net Position and Statement of Activities both governmental and business-like activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic assets are used. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

Fund Financial Statements – Fund financial statements report detailed information about the District. The focus of governmental and enterprise fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type.

The accounting and reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a Balance Sheet, which generally includes only current assets and current liabilities, and a Statement of Revenues, Expenditures and Changes in Fund Balances, which reports on the changes in net position. Proprietary funds and fiduciary funds are reported using the economic resources measurement focus. The Statement of Cash Flows provides information about how the District finances and meets the cash flow needs of its proprietary activities. The District has the following funds:

I. Governmental Fund Types

- a. The General Fund is the primary operating fund of the District and is always classified as a major fund. It accounts for financial resources used for general types of operations. This is a budgeted fund, and any unrestricted fund balances are considered resources available for use.
- b. The Special Revenue (Grant) Fund accounts for proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to disbursements for specified purposes. It includes federal financial programs where unused balances are returned to the grantor at the close of the specified project periods as well as the state grant programs. Project accounting is employed to maintain integrity for the various sources of funds. The separate projects of federally-funded grant programs are identified in the Schedule of Expenditures of Federal Awards included in this report. The Kentucky Department of Education has deemed this fund to always be classified as a major fund.

1. Summary of Significant Accounting Policies, Continued:

Basis of Presentation, Continued

I. Government Fund Types, Continued

- c. Capital Project Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities and equipment (other than those financed by Proprietary Funds).
  - 1. The Support Education Excellence in Kentucky (SEEK) Capital Outlay Fund receives those funds designated by the state as Capital Outlay Funds and is restricted for use in financing projects identified in the District's facility plan.
  - 2. The Facility Support Program of Kentucky (FSPK) accounts for funds generated by the building tax levy required to participate in the School Facilities Construction Commission's construction funding and state matching funds, where applicable. Funds may be used for projects identified in the District's facility plan.
  - 3. The Construction Fund accounts for proceeds from sales of bonds and other revenues to be used for authorized construction. This is a major fund of the District.
- d. The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest and related cost; and for the payment of interest on general obligation notes payable, as required by Kentucky Law.

II. Proprietary Fund Types (Enterprise Fund)

- a. The Food Service Fund is used to account for school food service activities, including the National School Lunch Program, which is conducted in cooperation with the U.S. Department of Agriculture (USDA). Amounts have been recorded for in-kind contributions of commodities from the USDA.

III. Fiduciary Fund Type (Agency and Private Purpose Trust Funds)

- a. The Agency fund accounts for activities of student groups and other types of activities requiring clearing accounts in which the District accounts for in purely a custodial capacity. These funds are accounted for in accordance with the Uniform Program of Accounting for School Activity Funds.
- b. The Private Purpose Trust Funds are used to report trust arrangements under which principal and income benefit individuals, private organizations or other governments.

*District-Wide Financial Statements*

Equity is classified as net position and displayed in three components:

- Invested in Capital Assets, Net of Related Debt – Consists of capital assets net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes or other borrowings that are attributed to the acquisition, construction or improvement of those assets.
- Restricted Net Position – Consists of net position with constraints placed on the use either by 1) external groups such as creditors, grantors or laws or regulations, or 2) law through constitutional provisions or enabling legislation.
- Unrestricted Net Position – All other net positions that do not meet the definition of “restricted” or “invested in capital assets, net of related debt”.

*Fund Financial Statements*

Under GASB 54, fund balance is separated into five categories, as follows:

- Nonspendable - Permanently nonspendable by decree of the donor, such as endowment, or items which may not be used for another purpose, such as amounts used to prepay future expenses or already purchased inventory on hand.
- Restricted – Legally restricted under federal or state law, bond authority, or grantor contract.
- Committed – Commitments passed by the Board.
- Assigned – Funds assigned to management priority including issued encumbrances.
- Unassigned – Funds available for future operations.

It is the District’s practice to liquidate funds when conditions have been met releasing these funds from legal, contractual, Board or managerial obligations, using restricted funds first, followed by committed funds, assigned funds, then unassigned funds.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting.

Basis of Accounting, Continued

Revenues – Exchange and Non-exchange Transactions – Revenues resulting from exchange transactions, in which each party receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenues are recorded in the fiscal year in which the resources are measurable and available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of the fiscal year-end.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the first year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Deferred Revenue – Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

In order to present the Special Revenue Fund on the accrual basis of accounting, and because the awards are not yet available as assets, cash awards received in advance for the 2020-2021 school year have been classified as deferred revenues. Likewise, all awards requested as a result of the 2019-2020 expenditures have been classified as receivables. Revenues of the Special Revenue Fund are considered earned when reimbursed expenditures are made or obligations are incurred, and of equal amount.

Grants and entitlements received before the eligibility requirements are met are recorded as unearned revenue.

Expenses/Expenditures – On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities used during the year is reported in the statement of revenues, expenses and changes in net position as an expense with a like amount reported as donated commodities revenue. Unused donated commodities are reported as deferred revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation, are not recognized in governmental funds.

Property Taxes

Property tax revenues – Property taxes are levied each September on the assessed value listed as of the prior January 1, for all real and personal property in the county. The billings are considered due upon receipt by the taxpayer; however, the actual date is based on a period ending 60 days after tax bill mailing. Property taxes collected are recorded as revenues in the fiscal year for which they were levied. All taxes collected are initially deposited into the General Fund and then transferred to the appropriate fund.

The property tax rates assessed for the year ended June 30, 2020, to finance the General Fund operations were \$.675 per \$100 valuation for real property, \$.675 per \$100 valuation for business personal property and \$.492 per \$100 valuation for motor vehicles.

The following is the District’s property tax calendar:

<u>Date Event</u>	
January 1, year of levy	Assessment date
November 1, year of levy	Taxes levied
November 30, year of levy	2% discount allowed
December 31, year of levy	Gross amount due
January 1, following year	Delinquent date, 5% penalty added
February 1, following year	21% penalty added

The District levies a utility gross receipts license tax in the amount of 3% of the gross receipts derived from the furnishings, within the county, of telephonic and telegraphic communications services, cablevision services, electric power, water and natural, artificial and mixed gas.

Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the Government-wide Statement of Net Position, but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the Government-wide Statement of Net Position and in the respective funds.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. The District maintains a capitalization threshold of five thousand dollars. Improvements are capitalized; the cost of normal maintenance and repairs that do not add value to the asset or materially extend an asset’s life are not.

**NOTES TO FINANCIAL STATEMENTS**  
**June 30, 2020**

1. Summary of Significant Accounting Policies, Continued:

Capital Assets, Continued

All reported capital assets are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives for both general capital assets and proprietary fund assets:

<u>Description</u>	<u>Estimated Lives</u>
Buildings and improvements	25-50 years
Land improvements	20 years
Technology equipment	5 years
Vehicles	5-10 years
Audio-visual equipment	15 years
Food service	10-12 years
Furniture and fixtures	7 years
Rolling stock	15 years
Other	10 years

Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "Interfund receivables/payables". These amounts are eliminated in the governmental and business-type activities columns of the statements of net position, except for the net residual amounts due between governmental and business-like activities, which are presented as internal balances.

Compensated Absences

The District's policies regarding sick leave permit employees to accumulate earned but unused sick leave. Upon retirement from the school system, an employee will receive from the District an amount equal to 30% of the value of accumulated sick leave. Personnel cannot exceed 300 days of sick leave.

Sick leave benefits are accrued as a liability using the termination payment method. An accrual for earned sick leave is made to the extent that it is probable that the benefits will result in termination payments. The liability is based on the School District's past experience of making termination payments.

The entire compensated absence liability is reported on the government-wide statements. The balance is estimated as if employees had twenty-seven years of service and eligible for retirement as of June 30, 2020. The current portion is the portion that is allocable to employees who have twenty-seven years of service or more.

For governmental fund financial statements, the current portion of unpaid accrued sick leave is the amount expected to be paid using the expendable available resources. These amounts are recorded in the general fund. The noncurrent portion of the liability is not reported and no portion is allocated to the Proprietary Fund.

Budgetary Process

Budgetary Basis of Accounting: The District's budgetary process accounts for certain transactions on a basis other than Generally Accepted Accounting Principles (GAAP). The major differences between the budgetary basis and the GAAP basis are:

Revenues are recorded when received in cash (Budgetary) as opposed to when susceptible to accrual (GAAP).

Expenditures are recorded when paid in cash (Budgetary) as opposed to when susceptible to accrual (GAAP).

Once the budget is approved, it can be amended. Amendments are presented to the Board at their regular meetings. Per Board policy, only amendments that aggregate greater than \$50,000 require Board approval. Such amendments made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year-end as dictated by law.

Each budget is prepared and controlled by the budget coordinator at the revenue and expenditure function/object level. All budget appropriations lapse at year-end.

Cash and Cash Equivalents

The District considers demand deposits, money market funds, and other investments with an original maturity of 90 days or less, to be cash equivalents.

Inventories

The only inventory maintained by the District consists of expendable supplies held for consumption and is accounted for in the Proprietary Fund. Inventory consists of donated and purchased foods held for resale and are expensed when used. Purchased food is valued at cost (first-in, first-out method) and U.S. Government donated commodities value is determined by the U.S. Department of Agriculture.

Prepaid Assets

Payments made that will benefit periods beyond June 30, 2020 are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which services are consumed.

Investments

The private purpose trust funds record investments at their quoted market prices. All realized gains and losses and changes in fair value are recorded in the Statement of Changes in Fiduciary Net Position.

The permanent funds record investments at their quoted market value prices for purposes of the Statement of Net Position. All realized gains and losses and changes in fair market value are recorded in the Statement of Activities.

**BARREN COUNTY BOARD OF EDUCATION**  
**NOTES TO FINANCIAL STATEMENTS**  
**June 30, 2020**

1. Summary of Significant Accounting Policies, Concluded:

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the Government-wide Financial Statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements.

In general, payables and accrued liabilities that will be paid from governmental funds are reported on the governmental fund financial statements regardless of whether they will be liquidated with current resources. However, claims and judgments, the noncurrent portion of capital leases, accumulated sick leave, contractually required pension contributions and special termination benefits that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they will be paid with current, expendable, available financial resources. In general, payments made within sixty days after year-end are considered to have been made with current available financial resources. Bonds and other long-term obligations that will be paid from governmental funds are not recognized as a liability in the fund financial statements until due.

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the District, those revenues are primarily charges for meals provided by the various schools and for childcare services provided.

Contributions of Capital

Contributions of capital in proprietary fund financial statements arise from outside contributions of fixed assets, or from grants or outside contribution of resources restricted to capital acquisition and construction.

Donated Commodities

The fair value of donated commodities received during the year is reported in the Proprietary Fund Statement of Revenues, Expenditures and Changes in Net Position as an expense and as donated commodities revenue (nonoperating revenue).

Pensions and Other Post-Employment Benefits (OPEB)

For purposes of measuring the net pension liability and net OPEB liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the County Employees Retirement System Non-Hazardous ("CERS") and Teachers Retirement System of the State of Kentucky ("KTRS") and additions to/deductions from fiduciary net position have been determined on the same basis as they are reported by the pensions. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Risks and Uncertainties

In March 2020, the World Health Organization declared the global novel coronavirus disease (COVID-19) outbreak a pandemic. Consequently, governments have encouraged self-isolation to curtail the spread. Many industries are experiencing disruptions and the District's operations could be adversely affected, but the impact is not known at this point. Accordingly, management believes that a material impact on the District's financial position and results of operations is reasonably possible.

**BARREN COUNTY BOARD OF EDUCATION**  
**NOTES TO FINANCIAL STATEMENTS**  
**June 30, 2020**

2. Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the District's management to make estimates and assumptions that affect reported amounts of assets, liabilities, fund balances and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

3. Deferred Outflows/Inflows of Resources:

The District adopted GASB No. 63 and in addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position or fund balance that applies to a future period(s) and thus, will not be recognized as an outflow of resources (expense/expenditure) until then. The District has deferred outflows associated with their pension and OPEB liabilities totaling \$5,878,805. Also, deferred savings on refinancing of bonds of \$696,993 net of accumulated amortization of \$800,535 qualifies for reporting in this category.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position or fund balance that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has deferred inflows relating to net pension and OPEB liabilities totaling \$4,664,842 that qualify for reporting in this category.

4. Cash Deposits and Investments:

At year end, the carrying amount of the District's total cash equivalents was \$3,433,697. These amounts were covered by Federal Depository Insurance or by securities pledged by the financial institution. (Governmental Funds \$2,385,069, Proprietary Funds \$528,373 and Fiduciary Funds \$521,056)

In accordance with GASB No. 72, Fair Value Measurement and Application, the District provides this additional disclosure regarding the fair value of its investments. The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles.

Level 1

Quoted prices (unadjusted) in an active market for identical assets or liabilities that the District has the ability to access at the measurement date.

Level 2

Inputs other than quoted market prices included in Level 1 that are directly or indirectly observable for the asset or liability.

Level 3

Unobservable inputs for the asset or liability used to measure fair value that rely on the District's own assumptions about the market participant's assumptions that may be used in pricing the asset or liability.

**BARREN COUNTY BOARD OF EDUCATION  
NOTES TO FINANCIAL STATEMENTS  
June 30, 2020**

4. Cash Deposits and Investments, Concluded:

The valuation methodologies described above may produce a fair value calculation that may not be indicative of net realizable values or reflective of future fair values. Furthermore, while the District believes its valuation methods are appropriate and consistent with those of other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The District has the following values associated with bonds for debt service:

<u>Type</u>	<b>Level 1 Fair Values</b>
Government Securities	\$ 850,636
Total	\$ 850,636

Credit Risk – Credit Risk the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. More specifically, custodial risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. All investments held by the District are insured or collateralized with securities held by the District or by the financial institution in the District’s name. As a means of managing the District’s exposure to fair value losses arising from increasing interest rates, the District primarily purchases investments with a maturity of less than three months. No investments in Money Market Accounts or Certificates of Deposit were in excess of federally insured limits.

Concentration of Credit Risk

The District’s investment policy places no limit on the amount the District may invest in any one issuer.

5. Capital Assets:

Construction in Progress:

At June 30, 2020, the District had a balance of \$115,531 in Construction in Progress. This balance is associated with a renovation of the new Central Office and the construction of a greenhouse at the high school. These projects were just in the planning phase at June 30, 2020, with an expected completion date in late 2021.

The District, through the General Fund (including utility taxes and the Support Education Excellence in Kentucky (SEEK) Capital Outlay Fund) is obligated to make lease payments in amounts sufficient to satisfy debt service requirements on bonds issued by the Barren County Fiscal Court to construct school facilities. The District has an option to purchase the property under lease at any time by retiring the bonds then outstanding.

On September 11, 2008 the District issued energy conservation revenue bonds, Series 2008, in the amount of \$1,740,000. On September 17, 2008 the District issued school building revenue bonds, Series 2008B, in the amount of \$10,210,000. The bonds were issued to finance the construction of North Jackson Elementary School.

In August 2010, the Board approved the issuance of refunding revenue bonds in the amount of \$3,645,000. These proceeds were used to call the remainder of the outstanding bonds of the issue of 2001.

In August 2010, the Board approved the issuance of refunding revenue bonds in the amount of \$4,580,000. These proceeds were used to call the remainder of the outstanding bonds of the issue of 2002.

In November 2010, the District issued school building revenue bonds, Series 2010, in the amount of \$1,920,000. The bonds were issued to finance the construction for the expansion of North Jackson Elementary School.

6. Bonded Debt and Lease Obligations, Continued:

In 1991, the District entered into “participation agreements” with the Kentucky School Facility Construction Commission. The Commission was created by Kentucky General Assembly for the purpose of assisting local school districts in meeting school construction needs. The District also entered into “participation agreements” with the Internal Revenue Service (IRS). Section 54A of the Internal Revenue Code provide rules for the issuance and use of qualified tax credit bonds for qualified zone academy bonds, QZAB. The table below sets forth the amount to be paid by the District as well as the Commission and IRS for each year until maturity of all bond issues. The liability for the total bond amount remains with the District and as such, the total principal outstanding has been recorded in the financial statements.

In fiscal year 2020, due to the United States federal government budget sequestration, the District was responsible for an additional payment of \$5,567 for the 2011 QZAB Bond issue.

In the current year, \$470,956 of interest was capitalized. This was composed of interest capitalized associated with the CCTS building project.

The bonds may be called prior to maturity and redemption premiums are specified in each issue. Assuming no bonds are called prior to scheduled maturity, the minimum obligations of the District, including amounts to be paid by the Commission and IRS, at June 30, 2020, for debt service (principal and interest) are as follows:

Year	Principal	Interest	Participation	District's Portion
2020-21	\$ 3,440,000	\$ 1,677,493	\$ 551,746	\$ 4,565,747

8. Commitments Under Noncapitalized Leases:

Commitments under operating lease agreements for office equipment provide for minimum future rental payments as of June 30, 2020, as follows:

<u>Year ending June 30</u>	
2021	\$ 83,919
2022	77,524
2023	75,952
2024	9,484
2025	<u>-</u>
Total Minimum Rental	<u>\$ 246,879</u>

Operating lease expense for the year ended June 30, 2020 was \$84,536.

9. Accumulated Unpaid Sick Leave Benefits:

Accrued sick leave is payable upon retirement at 30% of the value of the accumulated sick leave. In accordance with GAAP, the District has recorded approximately \$2.4 million in accrued sick leave liability in the District-Wide Statement of Net Position. Of the \$2.4 million, \$405,703 is associated with employees that have met the retirement eligibility and is reflected in the District Wide Statement of Net Position as the current portion. Additionally, the Governmental Fund Balance sheet reflects the current portion of accrued sick leave \$28,182. This amount is anticipated to be funded with current year's economic financial resources and is the District's amount associated with employees that have notified the District of retirement within the next year.

**BARREN COUNTY BOARD OF EDUCATION

10. Retirement Plans:

The District's employees are provided with two pension plans, based on each position's college degree requirement. The County Employees Retirement System (CERS) covers employees whose position does not require a college degree or teaching certification. The Kentucky Teachers Retirement System (KTRS) covers positions requiring teaching certification or otherwise requiring a college degree.

**General information about the County Employees Retirement System Non-Hazardous ("CERS")**

*Plan description*—Employees whose positions do not require a degree beyond a high school diploma are covered by the CERS, a cost-sharing multiple-employer defined benefit pension plan administered by the Kentucky Retirement System, an agency of the Commonwealth of Kentucky. Under the provisions of the Kentucky Revised Statute ("KRS") Section 61.645, the Board of Trustees of the Kentucky Retirement System administers CERS and has the authority to establish and amend benefit provisions. The Kentucky Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for CERS. That report may be obtained from <http://kyret.ky.gov/>.

*Benefits provided*—CERS provides retirement, health insurance, death and disability benefits to Plan employees and beneficiaries. Employees are vested in the plan after five years' service. For retirement purposes, employees are grouped into three tiers, based on hire date:

Tier 1	Participation date	Before September 1, 2008
	Unreduced retirement	27 years of service or 65 years old
	Reduced retirement	At least 5 years service and 55 years old At least 25 years of service and any age
Tier 2	Participation date	September 1, 2008-December 31, 2013
	Unreduced retirement	At least 5 years service and 65 years old Or age 57+ and sum of service years plus age equal 87
	Reduced retirement	At least 10 years service and 60 years old
Tier 3	Participation date	After December 31, 2013
	Unreduced retirement	At least 5 years service and 65 years old Or age 57+ and sum of service years plus age equal 87
	Reduced retirement	Not available

Cost of living adjustments are provided at the discretion of the General Assembly. Retirement is based on a factor of the number of years' service and hire date multiplied by the average of the highest five years' earnings. Reduced benefits are based on factors of both of these components. Participating employees become eligible to receive the health insurance benefit after at least 180 months of service.

10. Retirement Plans, Continued:

Death benefits are provided for both death after retirement and death prior to retirement. Death benefits after retirement are \$5,000 in lump sum. Five years' service is required for death benefits prior to retirement and the employee must have suffered a duty-related death. Benefits paid to the spouses of deceased members have been increased from 25% of the member's final rate of pay to 75% of member's average pay. If the member does not have a surviving spouse, benefits paid to surviving dependent children have been increased from 10% of the member's final pay rate to 50% of average pay for once child, 65% of average pay for two children, or 75% of average pay for three children.

*Contributions*—Required contributions by the employee are based on the tier:

	<u>Required Contribution</u>
Tier 1	5%
Tier 2	5% + 1% for insurance
Tier 3	5% + 1% for insurance

**General information about the Teachers' Retirement System of the State of Kentucky ("KTRS")**

*Plan description*—Teaching certified employees of the District and other employees whose positions require at least a college degree are provided pensions through the Kentucky Teachers' Retirement System of the State of Kentucky (KTRS)—a cost-sharing multiple-employer defined benefit pension plan with a special funding situation established to provide retirement annuity plan coverage for local school districts and other public educational agencies in the Commonwealth. KTRS was created by the 1938 General Assembly and is governed by Chapter 161 Section 220 through Chapter 161 Section 990 of the KRS. KTRS is a blended component unit of the Commonwealth of Kentucky and therefore is included in the Commonwealth's financial statements. KTRS issues a publicly available financial report that can be obtained at [http://www.ktrs.ky.gov/05\\_publications/index.htm](http://www.ktrs.ky.gov/05_publications/index.htm).

*Benefits provided*—For employees who have established an account in a retirement system administered by the Commonwealth prior to July 1, 2008, employees become vested when they complete five (5) years of credited service. To qualify for monthly retirement benefits, payable for life, employees must either:

- 1.) Attain age fifty-five (55) and complete five (5) years of Kentucky service, or
- 2.) Complete 27 years of Kentucky service.

Employees that retire before age 60 with less than 27 years of service receive reduced retirement benefits. Non-university employees with an account established prior to July 1, 2002 receive monthly payments equal to 2.0% (service prior to July 1, 1983) and 2.5% (service after July 1, 1983) of their final average salaries for each year of credited service. New employees (including second retirement accounts) after July 1, 2002 will receive monthly benefits equal to 2% of their final average salary for each year of service if, upon retirement, their total service is less than ten years. New employees after July 1, 2002 who retire with ten or more years of total service will receive monthly benefits equal to 2.5% of their final average salary for each year of service, including the first ten years. In addition, employees who retire July 1, 2004 and later with more than 30 years of service will have their multiplier increased for all years over 30 from 2.5% to 3.0% to be used in their benefit calculation. Effective July 1, 2008, the System has been amended to change the benefit structure for employees hired on or after that date.

**BARREN COUNTY BOARD OF EDUCATION  
NOTES TO FINANCIAL STATEMENTS  
June 30, 2020**

10. Retirement Plans, Continued:

Final average salary is defined as the member's five (5) highest annual salaries for those with less than 27 years of service. Employees at least age 55 with 27 or more years of service may use their three (3) highest annual salaries to compute the final average salary. KTRS also provides disability benefits for vested employees at the rate of sixty (60) percent of the final average salary. A life insurance benefit, payable upon the death of a member, is \$2,000 for active contributing employees and \$5,000 for retired or disabled employees.

Cost of living increases are one and one-half (1.5) percent annually. Additional ad hoc increases and any other benefit amendments must be authorized by the General Assembly.

*Contributions*—Contribution rates are established by Kentucky Revised Statutes (KRS). Non-university employees are required to contribute 12.855% of their salaries to the plan for fiscal year ending June 30, 2020 and 2019. This applies to employees hired prior to July 1, 2008 and those hired afterwards. The District's contractually required contribution rate for the year ended June 30, 2020 and 2019 for KTRS was 16.105% for employees hired prior to July 1, 2008 and those hired afterwards.

The CERS non-hazardous pension contribution rate for the employer was 19.30% of annual compensation and 16.22% for years ended June 30, 2020, and 2019, respectively. Employees hired before July 1, 2008 are required to contribute 5% of their salary and employees hired after that date are required to contribute 6%.

The Commonwealth of Kentucky, as a non-employer contributing entity, pays matching contributions at the rate of 13.105% of salaries for local school districts and regional cooperative employees hired before July 1, 2008 and 14.105% for those hired after July 1, 2008. For local school district and regional cooperative employees whose salaries are federally funded, the employer contributes 16.105% of salaries for fiscal years ending June 30, 2020 and 2019. If an employee leaves covered employment before accumulating five (5) years of credited service, accumulated employee pension contributions plus interest are refunded to the employee upon the member's request.

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

At June 30, 2020, the District reported a liability for its proportionate share of the net pension liability for CERS. The District did not report a liability for the District's proportionate share of the net pension liability for KTRS because the Commonwealth of Kentucky provides the pension support directly to KTRS on behalf of the District. The amount recognized by the District as its proportionate share of the net pension liability, the related Commonwealth support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the CERS net pension liability	\$ 18,954,618
Commonwealth's proportionate share of KTRS net pension liability associated with the District	88,479,501
	\$ 107,434,119

**BARREN COUNTY BOARD OF EDUCATION  
NOTES TO FINANCIAL STATEMENTS  
June 30, 2020**

10. Retirement Plans, Continued:

The total pension liability, net pension liability and sensitivity information was based on an actuarial valuation date of June 30, 2018. The total pension liability was rolled-forward from the valuation date to the plan's fiscal year end using generally accepted actuarial principles.

The District's proportion of the net pension liability for CERS was based on the actual liability of the employees and former employees relative to the total liability of the System as determined by the actuary. At June 30, 2019, the District's proportion was 0.269508%.

For the year ended June 30, 2020, the District recognized pension expense of \$2,715,632 related to CERS and \$6,658,569 related to KTRS for retirement. The District also recognized revenue of \$6,658,569 for KTRS support provided by the Commonwealth for retirement and instruction.

At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience in the measurement of the liability	\$ 483,968	\$ 80,088
Changes in assumptions	902,087	-
Net difference between projected and actual earnings on pension plan investments	363,854	669,411
Changes in proportion and differences between employer contributions and proportionate share of contributions	50,926	717,899
District contributions subsequent to the measurement date	1,183,744	-
	\$ 2,984,579	\$ 1,467,398

The amount reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows related to pensions will be recognized in pension expense as follows:

Year ended June 30	Net Deferred Outflows/Inflows
2021	\$ 201,180
2022	110,581
2023	21,676
2024	-
2025	-
Total	\$ 333,437

**BARREN COUNTY BOARD OF EDUCATION  
NOTES TO FINANCIAL STATEMENTS  
June 30, 2020**

10. Retirement Plans, Continued:

There have been no changes in plan provisions since June 30, 2018. However, the Board of Trustees has adopted new actuarial assumptions since June 30, 2018. These assumptions are documented in the report titled "Kentucky Retirement Systems 2018 Actuarial Experience Study for the Period Ending June 30, 2018". The Total Pension liability as of June 30, 2019 is determined using these updated assumptions.

*Actuarial assumptions*—The total pension liability in the June 30, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	<u>CERS</u>	<u>KTRS</u>
Inflation	2.30%	3.00%
Projected Salary Increases	3.3-11.55%	3.5-7.3%
Investment rate of return, net of investment expense and inflation	6.25%	7.50%

For CERS, the mortality table used for active members is RP-2000 Combined Mortality Table projected with Scale BB to 2013 (multiplied by 50% for males and 30% for females). For healthy retired members and beneficiaries, the mortality table used is the RP-2000 Combined Mortality Table projected with Scale BB (set back 1 year for females). For disabled members, the RP-2000 Combined Disabled Mortality Table projected with Scale BB to 2013 (set back 4 years for males) is used for the period after disability retirement.

For KTRS, mortality rates were based on the RP-2000 Combined Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on a projection of Scale AA to 2025 with a set forward two years for males and one year for females. For disabled members the RP-2000 Combined Disability Mortality Table projected with Scale BB to 2013 (set forward two years for males and seven years for females) is used for the period after disability retirement. There is a margin for future mortality improvement in the tables used by the system.

For CERS, the long-term expected return on plan assets is reviewed as part of the regular experience studies prepared every five years. The most recent analysis, performed for the period covering fiscal years 2014 through 2018, is outlined in a report dated April 18, 2019. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

**BARREN COUNTY BOARD OF EDUCATION**  
**NOTES TO FINANCIAL STATEMENTS**  
**June 30, 2020**

10. Retirement Plans, Continued:

For KTRS, the long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

*Assumed Asset Allocation*—The target allocation and best estimates of arithmetic real rates of return for each major asset class, as provided by KTRS’s investment consultant, are summarized in the following table:

Asset Class	CERS		KTRS	
	Target Allocation	Long-Term Expected Real Rate of Return	Target Allocation	Long-Term Expected Real Rate of Return
U.S. Equity	18.75%	4.30%	40.00%	4.20%
Non-US Equity	18.75%	4.80%	22.00%	5.20%
Fixed Income	0.00%	0.00%	15.00%	1.20%
Additional Categories	0.00%	0.00%	7.00%	3.20%
Private Equity	10.00%	6.65%	7.00%	6.30%
Specialty Credit/High Yield	15.00%	2.60%	0.00%	0.00%
Core Bonds	13.50%	1.35%	0.00%	0.00%
Cash	1.00%	0.20%	2.00%	0.09%
Real Estate	5.00%	4.85%	7.00%	3.80%
Opportunistic	3.00%	2.97%	0.00%	0.00%
Real Return	15.00%	4.10%	0.00%	0.00%
Total	<u>100.00%</u>		<u>100.00%</u>	

*Discount rate*—For CERS, the discount rate used to measure the total pension liability was 6.25%. The projection of cash flows used to determine the discount rate assumed that each fund receives the employer required contributions each future year as determined by the current funding policy established in statute, which includes the phase-in provisions from House Bill 362 (passed in 2018).

For KTRS, the discount rate used to measure the total pension liability was 7.50%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rates and the employer contributions will be made at actuarially determined contribution rates for all future fiscal years. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

*Periods of projected benefit payments*—For both CERS and KTRS, projected future benefit payments for all current plan members were projected through all periods to determine the total pension liability.

**BARREN COUNTY BOARD OF EDUCATION  
NOTES TO FINANCIAL STATEMENTS  
June 30, 2020**

10. Retirement Plans, Concluded:

*Sensitivity Analysis for CERS and KTRS*—The following table presents the net pension liability of the District, calculated using the discount rates selected by each pension system, as well as what the District’s net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	<u>1% Decrease</u>	<u>Current Discount Rate</u>	<u>1% Increase</u>
CERS	5.25%	6.25%	7.25%
District's proportionate share of net pension liability	\$ 23,706,851	\$ 18,954,618	\$ 14,993,678

A one percent decrease and a one percent increase for the KTRS proportionate share of the net pension liability is not shown because the Commonwealth of Kentucky provides the pension support directly to KTRS on behalf of the District.

*Pension plan fiduciary net position*—Detailed information about the pension plan’s fiduciary net position is available in the separately issued financial reports of both CERS and KTRS.

Total payroll for the District for fiscal year 2020 totaled approximately \$29,782,000. Of this amount, portions subject to CERS and KTRS were approximately \$7,207,000 and \$22,575,000 respectively. Pension and OPEB contributions paid by the District for CERS employees total \$1,578,324. Pension and OPEB contributions withheld from the employees totaled \$354,495.

The District also offers employees the option to participate in a defined contribution plan under Section 403(B), 401(K) and 457 of the Internal Revenue Code. All regular full-time and part-time employees are eligible to participate and may contribute up to the maximum amount allowable by law. The District does not contribute to these plans. For the year ended June 30, 2020, employees contributed approximately \$249,429 to the plans.

The state reports a liability, deferred outflows of resources and deferred inflows of resources, and expense as a result of its statutory requirement to contribute to the KTRS Medical Insurance and Life Insurance Plans.

**Medical Insurance Plan - CERS**

*Plan Description*—The Kentucky Retirement Systems' Insurance Fund is a cost sharing multiple-employer defined benefit Other Post-Employment Benefit plan for members that cover all regular full-time members employed in non-hazardous and hazardous duty positions of any state departments, board, agency, county, school board, and any additional eligible local agencies electing to participate.

*Funding policy*—In order to fund the post-retirement healthcare benefit, six percent (6%) of the gross annual payroll of employees before July 1, 2008 is contributed. Three percent (3%) is paid by member contributions and three quarters percent (.75%) from Commonwealth appropriation and two and one quarter percent (2.25%) from the employer. Also, the premiums collected from retirees as described in the plan description and investment interest help meet the medical expenses of the plan

*Benefits Provided*—The plan was established to provide hospital and medical insurance for eligible members receiving benefits from KERS, CERS, and SPRS. OPEB may be extended to beneficiaries of plan members under certain circumstances. The eligible non-Medicare retirees are covered by the Department of Employee Insurance (DEI) plans. KRS submits the premium payments to DEI. The Board contracts with Humana to provide health care benefits to the eligible Medicare retirees through a Medicare Advantage Plan.

There have been no changes in actuarial assumptions since June 30, 2018. However, the Board of Trustees has adopted new actuarial assumptions since June 30, 2018. These assumptions are documented in the report titled "Kentucky Retirement Systems 2018 Actuarial Experience Study for the Period Ending June 30, 2018" the total OPEB liability as of June 30, 2019 is determined using these updated assumptions.

Once members reach a minimum vesting period of 10 years, non-hazardous employees whose participation began on or after July 1, 2003, earn \$10 per month for insurance benefits at retirement for every year of earned service without regard to a maximum dollar amount. This dollar amount is subject to adjustment annually, which is currently 1.5%, based upon Kentucky Revised Statutes. See the chart below for current values for Dollar Contribution. This benefit is not protected under the inviolable contract provisions of Kentucky Revised Statutes 16.652, 61.692 and 78.52. The Kentucky General Assembly reserves the right to suspend or reduce this benefit if, in its judgment, the welfare of the Commonwealth so demands.

**Medical Insurance Plan – CERS, Concluded**

The amount of contribution paid by the Insurance Fund is based on years of service. For members participating prior to July 1, 2003, years of service and respective percentages of the maximum contribution are as follows:

<u>Dollar Contribution for Fiscal Year 2019</u>		<u>Portion Paid by Insurance Fund</u>	
For Member participation date on or after July 1, 2003			
<u>System</u>	(in whole dollars)	<u>Years of service</u>	<u>% Paid by Insurance Fund</u>
KERS Non-hazardous	\$ 13.38	20+ years	100.00%
KERS Hazardous	\$ 20.07	15-19 years	75.00%
CERS Non-hazardous	\$ 13.38	10-14 years	50.00%
CERS Hazardous	\$ 20.07	4-9 years	25.00%
SPRS	\$ 20.07	Less than 4 years	0.00%

Future contributions are projected in accordance with the Board’s current funding policy, which includes the requirement that each participating employer in the System contribute the actuarially determined contribution rate, which is determined using a closed funding period (24 years as of June 30, 2019) and the actuarial assumptions and methods adopted by the Board of Trustees. The fully insured premiums KRS pays for the CERS health insurance plans are blended rates based on the combined experience of active and retired members. Because the average cost of providing health care benefits to retirees under age 65 is higher than the average cost of providing it to active employees, there is an implicit employer subsidy for the non-Medicare eligible retirees. Current assets, future contributions, and investment earnings are projected to be sufficient to pay the projected benefit payments from the retirement system.

However, the cost associated with the implicit subsidy is not currently being included in the calculation of the System’s actuarial determined contributions, and any cost associated with the implicit subsidy will not be paid out of the System’s trust. Therefore, the municipal bond rate was applied to future expected benefit payments associated with the implicit subsidy. The projection of cash flows used to determine the single discount rate assumes that the funds receive the required employer contributions each future year, as determined by the current funding policy established in Statute as last amended by House Bill 362.

**Medical Insurance Plan - KTRS**

*Plan description*—In addition to the pension benefits described above, KRS 161.675 requires KTRS to provide post-employment healthcare benefits to eligible employees and dependents. The KTRS Medical Insurance Fund is a cost-sharing multiple employer defined benefit plan. Changes made to the medical plan may be made by the KTRS Board of Trustees, the Kentucky Department of Employee Insurance and the General Assembly.

*Benefits provided*—To be eligible for medical benefits, the member must have retired either for service or disability. The KTRS Medical Insurance Fund offers coverage to employees under the age of 65 through the Kentucky Employees Health Plan administered by the Kentucky Department of Employee Insurance. KTRS retired members are given a supplement to be used for payment of their health insurance premium. The amount of the member's supplement is based on a contribution supplement table approved by the KTRS Board of Trustees. The retired member pays premiums in excess of the monthly supplement. Once retired members and eligible spouses attain age 65 and are Medicare eligible, coverage is obtained through the KTRS Medicare Eligible Health Plan.

*Contributions*—The member postemployment medical contribution is 3.75% of salary. The employer postemployment medical contribution is .75% of member salaries. Also, employers (other than the state) contribute 3% of members' salaries and the state contributes the net cost of health insurance premiums for new retirees after June 30, 2010 in the non-Medicare eligible group. If a member leaves covered employment before accumulating five years credited service, accumulated member contributions to the retirement annuity plan plus interest are refunded upon the member's request.

**Life Insurance Plan - KTRS**

*Plan description* – KTRS administers the life insurance plan as provided by Kentucky Revised Statute 161.655 to eligible active and retired members. The KTRS Life Insurance benefit is a cost-sharing multiple employer defined benefit plan with a special funding situation. Changes made to the life insurance plan may be made by the KTRS Board of Trustees and the General Assembly.

*Benefits provided* – KTRS provides a life insurance benefit of five thousand dollars payable for members who retire based on service or disability. KTRS provides a life insurance benefit of two thousand dollars payable for its active contributing members. The life insurance benefit is payable upon the death of the member to the member's estate or to a party designated by the member.

*Contributions* – In order to fund the post-retirement life insurance benefit, three hundredths of one percent (.03%) of the gross annual payroll of members is contributed by the state.

**OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB**

At June 30, 2020, the District reported a liability of \$4,547,636 for CERS, \$10,165,000 for KTRS Medical Insurance Plan and \$0 for KTRS Life Insurance Plan for its proportionate share of the net OPEB liability. The District did not report a liability for its proportionate share of the collective net OPEB liability for the Life Insurance Plan because the Commonwealth provides OPEB support directly to KTRS on behalf of the District. The net OPEB liability was measured as of June 30, 2019, and the total OPEB liability used to calculate the collective net OPEB liability was determined by an actuarial value as of June 30, 2018. At June 30, 2019, the District's proportionate share was .270378% for CERS, .347325% for KTRS Medical Insurance plan and 0% for KTRS Life Insurance Plan.

11. Other Post-Employment Benefits (OPEB), Continued:

The amount recognized by the District as its proportionate share of the net OPEB liability for CERS and KTRS, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District's proportionate share of the CERS net OPEB medical liability	\$	4,547,636
District's proportionate share of the KTRS net OPEB medical liability		10,165,000
Commonwealth's proportionate share of KTRS net OPEB liability associated with the District - Medical and Life		<u>8,400,000</u>
		<u>\$ 23,112,636</u>

As a result of its requirement to contribute to the Plan, the District recognized OPEB expense of \$86,807 for CERS. For KTRS Medical Insurance Plan the District recognized OPEB expense of \$(398,775) and revenue of \$496,474 for support provided by the state at June 30, 2020. For KTRS Life Insurance Plan, the District recognized OPEB expense of \$8,475 and revenue of \$8,475 for support provided by the State. At June 30, 2020 the District reported deferred inflows and deferred outflows of resources related to the net OPEB liability from the following sources:

*Actuarial Assumptions:* The total OPEB liability, net OPEB liability and sensitivity information are based on an actuarial valuation performed as of June 30, 2018. The total OPEB liability was rolled-forward from the valuation date to the plan's fiscal year end, June 30, 2019 using generally accepted actuarial principles. For CERS, the KRS Board of Trustees adopted the following updated actuarial assumptions used in performing the actuarial valuation as of June 30, 2018:

CERS	
Board adopted - interim	
Inflation	2.30%
Payroll Growth Rate	2.0% for CERS non-hazardous and hazardous
Salary Increase	3.30% to 11.55%, varies by service

For CERS, mortality rates were based on the RP-2000 Combined Mortality Table, projected to 2013 with Scale BB (setback 1 year for females).

For KTRS, mortality rates were based on the RP-2000 Combined Mortality Table projected to 2025 with projection scale BB and set forward two years for males and one year for females is used for the period after service retirement and for dependent beneficiaries. The RP-2000 Disabled Mortality Table set forward two years for males and seven years for females is used for the period after disability retirement. The remaining actuarial assumptions (e.g. initial per capita costs, health care cost trends, rate of plan participation, rates of plan election, etc.) used in the June 30, 2018 valuation were based on a review of recent plan experience done concurrently with the June 30, 2018 valuation.

*Long-term expected rate of return:* For CERS was determined by using a building-block method in which the best-estimate ranges of expected future real rate of returns are developed for each asset class. The ranges are combined by weighting the expected future real rate of return by the target asset allocation percentage.

*Long-term expected rate of return:* For KTRS, was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target allocation and best estimates of arithmetic real rate of return for each major asset class are summarized in the following table:

*Discount Rate:* For CERS, the single discount rate of 5.68% for Non-hazardous was used to measure the total OPEB liability as of June 30, 2019. The single discount rate is based on the expected rate of return on OPEB plan investments of 6.25% and a municipal bond rate of 3.13% as reported in Fidelity Index's "20 Year Municipal GO AA Index" as of June 28, 2019. The following presents the District's proportionate share of the net OPEB liability if it were calculated using a discount rate 1% lower or 1% higher than the current discount rate:

Sensitivity of the Net OPEB liability to changes in the discount rate

	<u>1% Decrease</u>	<u>Current Discount Rate</u>	<u>1% Increase</u>
CERS	4.68%	5.68%	6.68%
District's proportionate share of net OPEB liability	\$ 6,091,962	\$ 4,547,636	\$ 3,275,215

*Discount Rate:* For KTRS - Medical Insurance Plan, the single discount rate of 8.0% was used to measure the total OPEB liability as of June 30, 2019. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rates and the employer contributions will be made at statutorily required rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability. The following presents the District's proportionate share of the net OPEB liability if it were calculated using a discount rate 1% lower or 1% higher than the current discount rate:

Sensitivity of the Net OPEB liability to changes in the discount rate

*Healthcare Trend Rate:* For CERS, the initial trend rate for participants under 65 years of age starts at 7.25% at January 1, 2019 and gradually decreases to an ultimate trend rate of 4.05% over a period of 13 years. For those over 65 years of age the trend rate starts at 5.1% at January 1, 2019 and gradually decreases to an ultimate trend rate of 4.05% over a period of 11 years. The following table presents the District's proportionate share of the net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1% lower or 1% higher than the current healthcare cost trend rate:

12. COBRA:

Under COBRA, employers are mandated to notify terminated employees of available continuing insurance coverage. Failure to comply with this requirement may put the District at risk for a substantial loss (contingency).

13. Litigation:

The District is subject to various legal actions in various stages of litigation, the outcome of which is not determined at this time. Management of the District and its legal counsel do not anticipate that there will be any material effect on the combined financial statements as a result of the cases presently in progress.

14. Contingencies:

The District receives funding from Federal, State and Local government agencies and private contributions. These funds are to be used for designated purposes only. For governmental agency grants, if based upon the grantor's review, the funds are considered not to have been used for the intended purpose, the grantors may request a refund of monies advanced, or refuse to reimburse the District for its disbursements. The amount of such future refunds and unreimbursed disbursements, if any, is not expected to be significant. Continuation of the District's grant programs is predicated upon the grantors' satisfaction that the funds provided are being spent as intended and the grantor's intent to continue their programs.

In addition, the District operates in a heavily regulated environment. The operations of the District are subject to the administrative directive, rules and regulations of federal and state regulatory agencies, including, but not limited to, the U.S. Department of Education and the Kentucky Department of Education. Such administrative directives, rules and regulations are subject to change by an act of Congress or the Kentucky Legislature or an administrative change mandated by the Kentucky Department of Education. Such changes may occur with little or inadequate funding to pay for the related costs, including the additional burden to comply with change.

15. Transfer of Funds:

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Payments made from the general fund checking account, which may or may not have the legal liability for the expenditure, may cause a receivable in the general fund and a payable from the fund having the legal liability to pay the expenditure at such time. All interfund receivables and payables have been eliminated on the District-wide Statement of Net Position. The following transfers were made during the year:

**BARREN COUNTY BOARD OF EDUCATION**  
**NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS**  
**For the Year Ended June 30, 2020**

1. Basis of Presentation:

The accompanying schedule of expenditures of federal awards includes the federal grant activity of the Barren County Board of Education under programs of the federal government for the year ended June 30, 2020. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the schedule presents only a selected portion of the operations of Barren County Board of Education, it is not intended to and does not present the financial position, changes in net position or cash flows of Barren County Board of Education.

2. Summary of Significant Accounting Policies:

Expenditures reported on the schedule are reported on the accrual basis of accounting for proprietary funds and the modified accrual basis of accounting for governmental funds. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

3. Food Distribution:

Nonmonetary assistance is reported in the schedule at the fair market value of the commodities received.

4. Indirect Cost Rate:

The District has elected not to use the 10% de minimis indirect cost rate as allowed under the Uniform Guidance.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL  
STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Members of the Board of Education  
Barren County Board of Education  
Glasgow, Kentucky 42141

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements prescribed by the Kentucky State Committee for School District Audits in the *Kentucky Public School Districts' Audit Contract and Requirements*, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Barren County Board of Education as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise Barren County Board of Education's basic financial statements, and have issued our report thereon dated November 13, 2020.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Barren County Board of Education's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Barren County Board of Education's internal control. Accordingly, we do not express an opinion on the effectiveness of Barren County Board of Education's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

## **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Barren County Board of Education's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*. In addition, the results of our tests disclosed no instances of material noncompliance of specific state statutes or regulations identified in the Independent Auditor's Contract.

We noted other matters that we reported to management of Barren County Board of Education in a separate letter dated November 13, 2020.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON  
INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Members of the Board of Education  
Barren County Board of Education  
Glasgow, Kentucky 42141

**Report on Compliance for Each Major Federal Program**

We have audited Barren County Board of Education's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Barren County Board of Education's major federal programs for the year ended June 30, 2020. Barren County Board of Education's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

***Management's Responsibility***

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

***Auditor's Responsibility***

Our responsibility is to express an opinion on compliance for each of Barren County Board of Education's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance); and the requirements prescribed by the Kentucky State Committee for School District Audits in the *Kentucky Public School Districts' Audit Contract and Requirements*. Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Barren County Board of Education's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Barren County Board of Education's compliance.

***Opinion on Each Major Federal Program***

In our opinion, Barren County Board of Education, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

## Report on Internal Control over Compliance

Management of Barren County Board of Education, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Barren County Board of Education's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Barren County Board of Education's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
